Zur Edition

Hauptquellen für die Quartette op. 33 Nr. 5, 2, 1, 6 sind die Originalausgabe A und die authentische Stimmenabschrift M, für die Quartette op. 33 Nr. 3, 4 ist allein A Hauptquelle. B, neben M die einzige nicht von einem Druck kopierte Handschrift, und die Ausgabe H, für die Haydn möglicherweise die Vorlage zur Verfügung stellte, wurden bei allen Quartetten als Nebenquellen herangezogen. Den Lesarten zufolge gehen alle vier Quellen unabhängig voneinander auf eine verschollene Abschrift des Autographs zurück. A und B haben aber einige gemeinsame Fehler, die in H und M noch nicht auftreten. In den wenigen Zweifelsfällen, in denen A, B und M, H sich widersprechen, folgt die Ausgabe daher den Quellen M und H.

Der Notentext ist so weit wie möglich den Hauptquellen entsprechend wiedergegeben, jedoch mit den für notwendig erachteten Berichtigungen und Ergänzungen. Ergänzte Zeichen stehen in Klammern, wobei anders als in der Gesamtausgabe und der Studienedition (HN 9209) nicht zwischen runden (Zeichen aus Nebenquellen) und eckigen Klammern (Ergänzungen des Herausgebers) unterschieden wird.

Der Kritische Bericht zum Gesamtausgabenband enthält eine ausführliche Beschreibung und Bewertung der Quellen, ein Verzeichnis von Haydns Korrekturen in den Autographen sowie ein vollständiges Verzeichnis der Lesarten. In den folgenden Einzelbemerkungen sind die für die Praxis wichtigen Stellen erfasst. Viele Fehler der frühen Drucke finden sich noch immer in modernen Ausgaben (und sind dort um weitere vermehrt worden).

Eine von Haydn stammende Bearbeitung des 4. Satzes von Op. 33 Nr. 5 ist ediert im Gesamtausgabenband auf S. 189f.

About this edition

The primary sources for the Quartets op. 33 nos. 5, 2, 1, and 6 are the original edition A and the authentic handwritten set of parts Me; for the Quartets op. 33 nos. 3 and 4 only A serves as the primary source. Bu, aside from Me the only manuscript not copied from a

printed edition, and the edition H, for which Haydn possibly provided the model, were consulted as secondary sources for all the quartets. According to the readings, all four sources are based independently of one another on a missing copy of the autograph. Nevertheless, A and Bu have several mistakes in common, although these are not yet present in H and Me. In the few doubtful cases in which A, Bu and Me, H contradict each other this edition follows the sources Me and H.

The musical text follows the primary sources as closely as possible, but has been supplied with the corrections and additions deemed necessary. The distinction in the Complete Edition between brackets (necessary editorial additions) and parentheses (markings from secondary sources) – which is also found in the respective study score (HN 9209) – was not maintained in the present edition, where additions are consistently placed in parentheses.

The Critical Report to the Complete Edition contains a detailed description and evaluation of the sources, a list of Haydn’s corrections in the autographs, and a complete list of the readings. The individual comments that follow cover the important passages for players. Many of the mistakes in the early prints can still be found in modern editions (and further ones have also found their way into them).

An arrangement by Haydn of the 4th movement of op. 33 no. 5 has been edited in the volume in the Complete Edition on pp. 189 f.

Individual comments

1. String Quartet in G major op. 33 no. 5

I Vivace assai

- 10, 103, 191 vn 2/va/vc: A as well as Bu and H generally have *ff* or *f* a note earlier, Me predominantly has it as in this edition.
- 24, 205 vn 1/2: In all of the sources the slur generally only extends to 1st note, but in isolated cases it also extends to 3rd note, or only 2nd–3rd notes are slurred.

57 vn 1: All sources have γ with A^2 instead of A^2 ; but see M 247.

89 vn 2/va/vc: Bu already has **p** at 1st note, in H it is a measure later.

123, 125 vn 1: Me has **fz** at 1st note. Bu and H also have **fz**, but in each source it is on 2nd beat of previous measure.

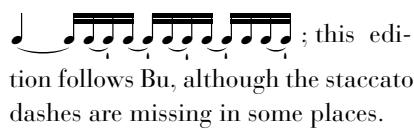

145 f. vc: A and Bu as well as H have tie. This edition follows Me due to the dynamic marking.

219, 223 vn 1: H has grace note f^2 at 1st note.

272 vn 1: Bu has **f** a note earlier; in A and H as in this edition; in Me there is no **f**.

II Largo e cantabile

19 vn 1: In A and Me as well as H the articulation can also be understood as follows:

27, 29 vn 1: A and in part also Bu and H have *cresc.* a measure earlier. This edition follows Me.

III Scherzo. Allegro

49 vn 1/2: 1st–2nd notes with tie, slur only from 3rd note? Thus in H, vn 1 as well as in Bu and H, vn 2.

IV Finale. Allegretto

26 vn 1: Me and H only begin last slur from c^2 ; this edition follows A and Bu.

49 ff. va, 57 ff. vc: Continuation of the articulation indicated is inconsistent in the sources.

2. String Quartet in E \flat major op. 33 no. 2

I Allegro moderato

18 f., 75 f. vc: With tie? Thus in Bu, M 18 f. and H, M 75 f.

20, 77 vn 1: A and Me give A^2 above, not after, 4th note; in Bu it is at 5th note. This edition follows H.

23 vn 1: Me only begins slur from 3rd note; A as well as Bu and H without slur.

45 va: A has **fz** a note earlier; in Me and H not clear; in Bu without **fz**.

II Scherzo. Allegro

19 va: In Me as well as in Bu and H not staccato. This edition follows A.

58 f. vn 2: With fingering *1* as vn 1?
(Thus in Bu, M 59, 1st note.)

III Largo e sostenuto

28 va: — in all the sources; better as in M 25?

44 vn 1: Me has **p** again from 2nd beat; better thus in all parts?

45 vn 1: A and Me as well as H only begin slur at 2nd note; in Bu without slur.

IV Finale. Presto

148 vn 1: In A as well as in Bu and H, 1st note is not staccato. This edition follows Me.

149, 151 va/vc: All the sources mostly have **p** in the next measure; but see vn 2.

158 vn 1: In A as well as in Bu and H, 2nd note is bb^1 instead of a^1 ; originally also thus in Me, then changed to a^1 (without \natural). In this edition as in M 4, 32, etc.

165 va: In H 2nd–4th notes staccato as in vn 1. This edition follows A, Me and Bu.

3. String Quartet in b minor

op. 33 no. 1

I Allegro moderato

Upbeat to 52 vn 1: Me as well as Bu and H have **f** a note later. This edition follows A.

58 vc: Instead of A^2 in Me A^2 , in Bu grace note g . This edition follows A and H.

84 vc: In H 4th note is d^{\sharp} not d .

III Andante

1 vn 2: Principal text follows A; in Me, Bu and H as in the footnote.

5 f., 59 f. vc: In Bu and for the most part in A the slur only begins at 2nd note each time. This edition follows H and mostly also Me.

42 vn 1: A as well as Bu and H have two slurs, at 1st–2nd and 3rd–5th or at 2nd–3rd and 4th–5th notes; Me has one slur at 2nd–5th notes.

IV Finale. Presto

1 vn 2: Bu has **p**. Better thus in all parts or only in vn 2/va/vc in view of **f** in M 13?

87 va: In A and Bu 8th note is g^1 not a^1 . This edition follows Me and H.

132 vn 1: All sources give **pp** a note later. Va/vc are marked in a conflicting manner in the sources, all the sources give vn 2 as in this edition.

4. String Quartet in C major

op. 33 no. 3

I Allegro moderato

22 vn 1: In A and H 3rd note not 2nd is staccato, and slur only starts at 4th note. This edition follows Bu, although there is no tie there.

63 f. vn 1: In A as well as in Bu and H in M 63 the last two notes are e^2 – g^2 not g^2 – e^2 , in M 64 1st note is g^2 not e^2 ; but see M 4 f. and 64 f.

125 vn 1/2: H and Bu have **f** in vn 1 at beginning of measure. Should **f** also, then, be adopted by vn 1/2/va parts in this edition?

151a vn 2: Bu has **f**. Should this also be adopted by all parts in this edition?

157 vn 1: A only begins 2nd slur at a^2 ; Bu and H without slur.

163 ff.: Bu and H have dynamics as in M 1 ff., but they are not consistent in all parts.

166 vn 2: **f** only in A, not in Bu and H.

III Adagio ma non troppo

1: Tempo marking *ma non troppo* only in A, vn 1, perhaps due to a later addition by Haydn in the engraver's copy.

35 vn 2/va/vc: In A as well as in Bu and H 2nd–4th notes have contradictory articulation markings; in part staccato, without articulation or even slurred.

67 vn 1: A only has one slur at 2nd–3rd quarter-note value; H only has the last two notes slurred; in Bu without articulation.

73 vn 2: In A rhythm is $\text{A}^2 \text{ A}^2 \text{ A}^2$; this edition follows Bu and H.

84 va/vc: Accidental at 4th–5th notes questionable. In A 4th note in va has \natural .

not **b**, in vc there is no accidental; in H 4th note in va/vc has **b**; in Bu va as in H, vc 4th–5th notes *c*.

5. String Quartet in D major

op. 33 no. 6

II Andante

34 vn 2: Here and often at other places in A portato already at 1st note. Better also thus at M 3 and corresponding passages?

41 vn 1: In A 8th note is *b*¹ not *bb*¹. This edition follows Me, Bu and H.

III Scherzo. Allegretto

14 vn 2: Articulation problematic: A does not have slur; in H, vn 2/va/vc

6. String Quartet in B♭ major

op. 33 no. 4

I Allegro moderato

36–46 vn 1: Bu mostly has 1st note with *tr.* thus also in A, at M 37. This edition follows H.

II Scherzo. Allegretto

1: Tempo marking *Allegretto* not in H, in A only in vn 1; only present in all parts in Bu.

81 vc: Principal text follows A, Bu and H. The suggested alternative in this edition follows M 33 etc., especially M 109.

110 vc: Principal text follows A, Bu and H. The suggested alternative in this edition follows M 6 etc., especially M 82.
