

Evgeny Kissin's compositions at G. Henle Publishers

G. Henle Publishers is honoured and proud to be, as of now, the exclusive music publisher of compositions by world-renowned inspired pianist Evgeny Kissin.

Hardly anyone is aware that Maestro Kissin has been composing since early childhood. Interrupted at times by his global piano career, he started composing again intensively a few years ago, having once more felt the "urge", as he himself puts it. Ideas and fragments from his earlier years flowed into the works here, which are informed by a variety of styles. Encouraged by prestigious composers and musician friends, he is now venturing the step to publication.

To begin with, we are presenting three of his compositions: piano pieces, a cello sonata, and a string quartet. This is an absolute first in the history of G. Henle Publishers where otherwise only established classics find their home. With these editions, created in strict accordance with our rules governing music engraving and production, musicians now also have the opportunity to discover Evgeny Kissin as a composer. It's well worth it!
